

# Skilling College of Paramedical Education

A Unit of Arogya Medical Education Trust established in 2013

**SCOPE**  
SKILLING COLLEGE OF  
PARAMEDICAL EDUCATION

**Earn while you Learn**

# WHAT IS SCOPE?

SCOPE is a paramedical institute that redefines medical study by providing courses that exceed traditional methods. It offers a wide range of degree, diploma and certificate courses in Paramedical Sciences.

**Dr.S.M. Arora**  
Managing Trustee

## VISION

To provide the world with skilled and equipped paramedical manpower trained to match the global standards

## MISSION

To be established as a pioneer in healthcare education and create skilled manpower in healthcare by providing optimum education according to national and international standards

## AIM

To create adept and competent paramedical professionals who can work towards the betterment of the healthcare sector

**Our Affiliations:**

# OUR HEALTH WORKSHOPS

## 1. First Aid And Disaster Management Training:

This workshop enables a person to assist injured ones in the event of an accident or emergency until medical help arrives.

## 2. Fire Fighting Training:

A systematic training regarding the general understanding of fire science, factors, causes, fire plans, evacuation, roll call followed by ERT formation, and various techniques to handle emergencies.

## 3. Communication Skills & Personality Development:

Refurbish your English speaking skills, learn business etiquette, improve body language & power dressing, and various other things with our exclusive workshop.

## 4. Upskilling Programs In Collaboration With Siemens:

Includes 3 Modules:

1. Clinical Lab Chemistry
2. Immunoassay and Patient Safety
3. Hematology, Urinalysis and Prospective for tomorrow

## 5. ECG Crash Course:

Learn ECG in 5 days with online theory classes and practical experience. Our ECG workshop also gives students an opportunity to work as home visit ECG technicians.

# FAQs

## Is there a possibility to get an internship or placement near my residence?

We provide 100% placement assistance. One needs to prove himself/herself during the internship. We also try to place our students for internships in nearby centers. However, at times, it is important to expose students to different working conditions.

## Will I get a certificate from SCOPE?

Yes, you will get a certificate from universities/affiliations under which you are pursuing a course.

## What are the payment options available?

### Bank Transfer:

• Account Name:  
SCOPE - AROGYA MEDICAL EDUCATION TRUST

• Account Number:  
50200064280731

• Bank Name: HDFC

• IFSC Code: HDFC0000546

### Wallet Payment:

- Google Pay
- Phone Pe
- Paytm

### Cheque

\*We also have an EMI structured payment available.

## I am from a Commerce/ Arts background. Can I still enroll?

All our students are thoroughly taken through both anatomy & physiology, with a focus on both practical and theoretical training. If you possess a basic 10th standard science understanding, you may enroll.

## I am a working professional. Can I pursue the course?

Yes, we have part time and weekend batches available for the same.

# TESTIMONIALS

**Alisha Salmani,**  
**CMLT**

After completing my first year of CMLT from SCOPE, I received three months of training as a phlebotomist. Post training, I worked at the international airport at the Covid facility too.

I have now taken admission for second year DMLT and I also work part-time. All this has been possible because of SCOPE, and I am thankful for that!

**Ashwati Nair,**  
**DMLT**

I had taken admission with SCOPE for DMLT Course. When I went to the college, they informed me about the fee installment option.

I had paid my fees in three installments and it was an easy procedure. All the teachers guided me well and were very helpful.

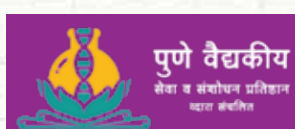

**Omkar Govekar,**  
**DMLT**

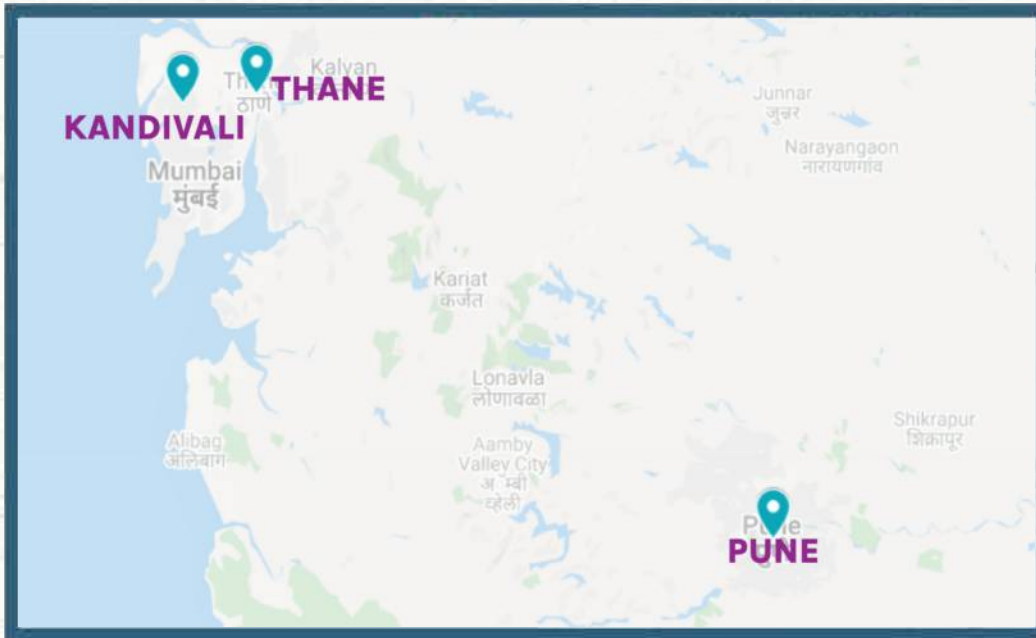

I joined SCOPE a year ago and have been learning DMLT and Radiology. I consider the faculty to be the most optimistic and understanding. After the online theoretical sessions, we were placed at Suburban Diagnostics Center for training.

A year has passed since my training, and I have been placed at a very good platform near my location. The faculty and the college is very good and well equipped. I'm proud to be a Scopian!
